Subject : Response to request for a list of exporters registered or authorized to export Hass avocados to the Philippines.

Reference : Letter s/n dated March 3, 2026

I am pleased to address you, in reference to the referenced document, through which the list of registered or authorized exporters to export Hass avocados from Peru to the Philippines is requested, including the name of each exporter and their full business address.

Hass avocado exports, the certification and authorization process takes place at the beginning of each export season and is geared towards production areas and packing plants. Furthermore, the National Agrarian Health Service (SENASA) does not grant direct authorizations to exporters.

However, for reference purposes, a list of exporters who participated in the previous campaign is attached, bearing in mind that new exporters may join each season. Furthermore, in accordance with national regulations on access to public information (Law No. 27806), it is not possible to share the exporters' business addresses.

Additionally, updated lists of production sites and packing plants certified and authorized by SENASA are shared, and these are automatically updated once they obtain the corresponding certification. In this regard, we would appreciate it if this verification mechanism were considered at the points of entry into the Philippines.
